

We are currently seeking an Apprentice Electrician! You will strive to provide safe electrical systems for a variety of customers.

### **Description:**

As an Electrician Apprentice you will work directly under the supervision of a qualified Journeyman Electrician in the installation and repair of electrical systems, hydraulic, pneumatic and electronic components of industrial machinery and equipment.

Specific responsibilities:

- Helping install power supply wiring and conduit such as: EMT, Rigid conduit, MC cable, strut, cable trays
- Assisting with troubleshooting electrical components, wiring diagrams, transformers, motors, panels, and circuit
- Helping to install, maintain, and repair electrical systems such as: switch gears, motor controls, electrical panels, CT cabinets, lighting, and power supplies
- Measuring, cutting, and bending wire and conduit, using measuring instruments and hand tools
- Tracing out short circuits in wiring, using test meter
- Examining electrical units for loose connections and broken insulation and tighten connections, using hand tools
- Constructing controllers and panels, using power drills, drill presses, taps, saws and punches
- Cleaning work area
- Maintaining tools, vehicles, and equipment and keeping parts and supplies in order

### **Requirements:**

Specific requirements:

- Ability to work well under the supervision of a Journeyman Electrician following electrical code manuals
- Eagerness to learn to comprehend schematic diagrams, blueprints and other specifications required by our client
- Experience working with hand tools, power tool and electronic test equipment

- Working knowledge of job site safety as well as ability to complete a company specific safety orientation
- High standard of integrity and professionalism
